

BESS G. KOFFMAN

Assistant Professor of Geology, Colby College
5800 Mayflower Hill Drive, Waterville Maine 04901
bess.koffman@colby.edu; besskoffman.weebly.com

APPOINTMENTS

- 2017-present **Assistant Professor of Geology**, Colby College
2015-2017 **Adjunct Postdoctoral Research Scientist**, Lamont-Doherty Earth Observatory (LDEO) of Columbia University (Geochemistry)
2015-2017 **Society of Fellows Postdoctoral Fellow**, Dartmouth College
2013-2015 **NSF Postdoctoral Fellow in Polar Regions Research**, LDEO, Columbia University (Geochemistry)
2005-2006 **Antarctic Marine Biogeochemistry Technician**, Virginia Institute of Marine Science

EDUCATION

- Ph.D., 2013 Earth and Climate Sciences, University of Maine, Orono, Maine
Dissertation: *Atmospheric dust deposition in West Antarctica over the past two millennia*. Advisor: Karl J. Kreutz
B.A., 2004 Geology, *magna cum laude*, Carleton College, Northfield, Minnesota
Thesis: *Molecular phylogenetic analysis of a bacterial mat community, Le Grotte di Frasassi, Italy*. Advisor: Jennifer L. Macalady

RESEARCH FUNDING

Developing and teaching "Volcanoes and the Ocean Ecosystem": a course for Pribilof Islands students. \$16,700. PI: B. Koffman. North Pacific Research Board, 2021-2024.

Impacts of fresh and aged volcanic ash on phytoplankton in the subarctic North Pacific. \$596,615 total award (\$105,298 Colby amount). Lead PI: C. Mitchell; co-PIs: B. Koffman, K. Stamieszkin, B. Twining. North Pacific Research Board, 2021-2024.

Fingerprinting atmospheric dust in the Southern Hemisphere to trace past climate change. \$30,000. PI: B. Koffman. AAUW American Postdoctoral Research Leave Fellowship, 2021-2022.

Acquisition of a SEM-EDS-EBSD-CL microanalytical system for research, teaching, and outreach in Geology at Colby College, a Primarily Undergraduate Institution (PUI). \$299,500. PI: T. Dunn; co-PIs: B. Koffman, W. Sullivan. NSF EAR Instruments and Facilities, 2021-2022.

Collaborative: EAGER: Development of a method for paired K/Ar geochronology and Sr-Nd-Pb radiogenic isotope geochemistry of dust in ice cores. ~\$210,000 total award (\$126,316 Colby amount). PI: B. Koffman; co-PIs: S. Goldstein, S. Hemming. NSF EAGER, 2020-2022.

Fingerprinting Alaskan Dust, Part IV: Isotopes in Snow and Ice. \$3,000. PI: B. Koffman. Colby College Natural Sciences Division Research Grant, 2021-2022.

Assessing Northern Hemisphere westerly wind variability in the North Pacific during the past millennium. \$7,945. PI: B. Koffman. Co-PIs: L. Sethares, L. Hanschka. Colby Buck Lab Grant, 2019-2020.

Fingerprinting Alaskan Dust, Part IV: Isotopes in Snow and Ice. \$3,000. PI: B. Koffman. Colby College Natural Sciences Division Research Grant, 2020-2021.

Fingerprinting Alaskan Dust, Part II: Snow and Ice. \$3,000. PI: B. Koffman. Colby College Natural Sciences Division Research Grant, 2019-2020.

Evaluating the composition of terrestrial nutrients delivered to the subarctic Pacific Ocean. \$2,810. PI: B. Koffman. Co-PI: M. Yoder. Colby Buck Lab Grant, 2018-2019.

RUI: Collaborative Research: Climate change impacts on atmospheric nutrient deposition and ecosystem function in the mid-to-high latitude Pacific Ocean. \$410,121 total award (\$166,034 Colby amount). Lead PI: B. Koffman; co-PI: M. Lomas. NSF Arctic Natural Sciences, 2019-2023, declined.

Evaluating Atmospheric Nutrient Deposition and Impacts in the Subarctic Pacific Ocean. \$8,556. PI: B. Koffman. Co-PIs: T. Methven, M. Yoder. Colby Buck Lab Grant, 2018-2019.

Fingerprinting Alaskan Dust. \$3,000. PI: B. Koffman. Colby College Natural Sciences Division Research Grant, 2018-2019.

Constraining Antarctic Continental Evolution and Ice Sheet Behavior using Geochemical Approaches. \$10,000. PI: B. Koffman. Dartmouth Society of Fellows Venture Funding, 2017.

Support for Early Career Ice Core Scientists at the AGU Fall Meeting, San Francisco, \$2000. PIs: B. Koffman and B. Markle. Scientific Committee on Antarctic Research, 2016. (Secured funding to provide \$200 travel grants to 10 early career scientists)

Support for Early Career Scientists at the Ice Core Young Scientists Workshop in Hobart, Australia, \$24,800. Supplement to NSF ANT-0968391 (PI: E. Brook). Proposal written by B. Koffman and B. Markle, 2016.

Dartmouth Society of Fellows Postdoctoral Fellowship (competitive selection, <0.3% success rate), \$234,888 total value. PI: B. Koffman, 2015-2018.

Assessing Northern Hemisphere westerly wind variability in the North Pacific during the past millennium, \$10,000. PI: B. Koffman; co-PIs: S.L. Goldstein, and P. Biscaye. Lamont Climate Center, 2013-2016.

Women's Leadership Development Grant, \$500. Lamont-Doherty Earth Observatory, 2013.

NSF ANT-1204050: *Evaluating New Zealand as a source of dust to West Antarctica during the Last Glacial Maximum,* \$139,116. PI: B. Koffman. Office of Polar Programs Postdoctoral Fellowship in Polar Regions Research, 2013-2015.

Atmospheric dust deposition in West Antarctica: Iron biogeochemistry, dust provenance, and climatic significance, \$50,000. University of Maine Dissertation Research Fellowship (competitive selection), 2012-2014 (declined 2nd year support because started postdoctoral work).

NSF ANT-1143661: *Travel grant to visit Cornell University and Lamont-Doherty Earth Observatory of Columbia University*, \$1600. PI: B. Koffman, 2011.

Testing the relationship between the Southern Hemisphere westerlies and atmospheric CO₂ over the past 2400 years, \$13,120. Chase Distinguished Research Assistantship (competitive selection), University of Maine, 2011-2012.

Atmospheric dust deposition in West Antarctica: Iron biogeochemistry, dust provenance, and climatic significance, \$17,288. Correll Graduate Student Research Fellowship (competitive selection), University of Maine, 2010-2011.

Through Their Eyes: Exploring Childhood and Culture in Tanzania, \$3200. Larson International Fellowship (competitive selection), Carleton College, 2004.

Molecular phylogenetic analysis of a bacterial mat community, Le Grotte di Frasassi, Italy, \$3000. Bernstein Student Research Fellowship, Carleton College, 2003.

Secured additional \$10,000 in small grants and travel awards from multiple sources, 2007-2016.

AWARDS

Outstanding Reviewer, *Communications Earth and Environment*, 2021

Teaching and Learning at Colby Fellowship, Colby College, 2019-2020 (2 semesters)

Faculty Instructional Technology Fellowship, Colby College, 2018

LacCore and the Continental Drilling Scientific Coordination Office Drilling and Coring Summer Institute (competitive selection), 2017

Outstanding Reviewer, *Journal of Geophysical Research – Atmospheres*, 2015

Outstanding Reviewer, *Earth and Planetary Science Letters*, 2015

New Generation of Polar Researchers Leadership Symposium (competitive selection), 2015

Oral Presentation Award, Physical Sciences and Technology, University of Maine, 2013

Best Poster Award, International Partnerships in Ice Coring Sciences Open Science Meeting, Presqu' Ile de Giens, France, 2012

Winner, AGU "Lights, Camera, Science!" Student Video Competition, 2012

Best Oral Presentation, Physical Sciences and Technology, University of Maine, 2012

Graduate Dean's Undergraduate Mentoring Award, University of Maine, 2012

Graduate Teaching Award, University of Maine, 2012

Graduate Research Excellence Award, University of Maine, 2012

Antarctica Service Medal of the United States of America, 2011

Outstanding Service Award, University of Maine, 2011

“ThinkSwiss: Brainstorm the Future,” a program of the Swiss State Secretariat for Education and Research and the Swiss Federal Department of Foreign Affairs, 2009

Best Oral Presentation, Physical and Mathematical Sciences, University of Maine, 2009

Lilianna M. Galasso Scholarship, University of Maine, 2008

Sigma Xi, The Scientific Research Society, 2004

INVITED SEMINARS

Colorado Mountain College, October 2020

NSF Ice Drilling Program “School of Ice,” June 2020

Colby Museum of Art, October 2019

Colby Environmental Humanities *Energy/Exhaustion* Seminar Series, September 2019

College of the Atlantic Climate Change Seminar Series, April 2019

Geological Society of America Fall Meeting, November 2018

University of Vermont Geology Department Seminar, October 2018

Borns Symposium Alumni Lecture, University of Maine, May 2018

Colby College Geology Department Seminar, Feb. 2018

Bigelow Lab for Ocean Sciences, Jan. 2018

Colby College Faculty Forum, Oct. 2017

NSF Ice Drilling Program “School of Ice,” June 2017

Colby College Geology Department Seminar, Feb. 2017

Lamont-Doherty Earth Observatory Geochemistry Seminar Series, May 2015

City College of New York Earth and Atmospheric Science seminar, Apr. 2015

Dickinson College Earth Sciences Seminar, Feb. 2015

Yale University Atmosphere, Oceans, and Climate Dynamics Seminar Series, Nov. 2014

Middlebury College Geology Seminar Series, Feb. 2014

Cornell University Space and Planetary Sciences “Planetary Lunch,” Nov. 2012

Lamont-Doherty Earth Observatory Geochemistry Seminar Series, Sept. 2011

Cornell University Department of Earth and Atmospheric Sciences Fall Seminar Series, “Earth Trek Next Generation: New Talent, New Techniques, New Frontiers,” Aug. 2011

TEACHING EXPERIENCE

Colby College

Instructor, Earth Systems Chemistry II (GE 122), Spring 2019, 2020

Co-instructor of record with Dr. Greg Drozd (Chemistry).

Instructor, Earth Systems Chemistry (GE 121), Fall 2018, 2019

Co-instructor of record with Dr. Karena McKinney (Chemistry). This two-semester sequence explores fundamental chemistry principles through the lens of Earth's 4.56 billion-year history. Developed and taught a new set of labs in Fall 2019.

Instructor, Topics in Geochemistry (GE 361), Fall 2018

Instructor of record. Course uses lecture, problem sets, and primary literature to explore the theory and application of a range of geochemical approaches used to study Earth processes.

Instructor, Colby Achievement Program in the Sciences (CAPS), Summer 2018, 2019

Instructor, Earth's Climate: Past, Present, and Future (GE 262), Spring 2018, 2019, 2020

Instructor of record for course with lab. Course takes a systems approach to exploring the mechanisms that shape environmental evolution across a range of timescales. Lab provides hands-on experience developing a lake sediment record of Maine's climate history.

Instructor, Paleoceanography (GE 363), Fall 2017, 2020

Instructor of record, literature synthesis course focused on understanding major climate trends, events, and driving mechanisms during the Cenozoic.

Dartmouth College

Instructor, Meteorology (EARS 14), Spring 2016

Instructor of record, introductory meteorology course with lab; developed course materials, including lectures, activities, labs, and exams.

Co-Instructor, Stretch (EARS 45/46/47), Fall 2016

Co-led 10-day glaciology segment of 10-week field-based geology course, Banff National Park, Canada. Taught glaciology and glacial geomorphology topics.

University of Maine

Instructor, Global Environmental Change (ERS 201, 4 cr), Spring 2013

Co-developed inquiry-based approach to teaching course, including curriculum on scientific argumentation and writing; responsible for shared course instruction.

Course Coordinator, Graduate Seminar in Quaternary Studies (INT 500, 2 cr), Fall 2011

Course theme: "The influence of ocean circulation on Earth's climate at multiple time and space scales." Responsible for designing course, selecting and inviting guest speakers, establishing course reading list, facilitating discussions.

Teaching Assistant, Global Environmental Change (ERS 201, 4 cr), Spring 2010 & 2011

Contributed to all aspects of course design, including projects, labs and exams. Taught selection of labs and lectures, co-facilitated field trips, developed and taught series of writing workshops, performed majority of grading for course.

Teaching Assistant, Beaches and Coasts (ERS 108, 3 cr), Spring 2011

Assisted professor in large lecture course (200 students) with A/V setup, taking notes during lectures, and proctoring exams for approximately half the semester.

Teaching Assistant, Earth Systems (ERS 200, 4 cr), Fall 2010

Had important role of maintaining sense of continuity for 14 students in a course with 4 different instructors. Held regular office hours, worked with students on

their writing and presentation skills, and provided timely edits of students' 5-10 page research papers for each of the 3 course modules. Co-led field trip to Great Head, Acadia National Park, for geologic mapping exercise.

Laboratory Coordinator, Introduction to Geology (ERS 101, 4 cr), Fall 2010
Prepared weekly lab exercises for introductory geology courses; organized and maintained rock, mineral and map collections and safety equipment.

Gulf of Maine Foundation SURE Intern, Darling Marine Center, Summer 2002
Designed and taught marine science educational activities to all ages; served as the liaison between the research community and the public.

Carleton College, Northfield, Minnesota

Teaching Assistant, Principles of Chemistry (CHEM 123, 6 cr), Fall 2001

Teaching Assistant, Geomicrobiology (GEOL 235, 6 cr), Winter 2004

OUTDOOR/ENVIRONMENTAL EDUCATION

Chewonki Foundation, Wiscasset, Maine

Wilderness Instructor, Summer 2007

North Carolina Outward Bound School, Asheville, North Carolina

Logistics Coordinator, Summer 2005

Instructor, Winters 2007 and 2008

Boston University Sargent Center for Outdoor Education, Hancock, New Hampshire

School Program Instructor, 2004-2005

Liteambo Secondary School, Liteambo, Ruvuma, Tanzania

Visiting Science Teacher, Summer 2003

Taught basic science classes for several weeks to students in a remote village

RESEARCH STUDENTS ADVISED

PhD Committee Member/Research Mentor

Hanna Brooks, University of Maine, 2021-present. Advisor: Karl Kreutz.

Aaron Chesler, University of Maine, 2017-present. Advisor: Karl Kreutz.

MS Committee Member

Katherine Anderson, Dartmouth College, 2019-2020. Advisor: Erich Osterberg.

Senior Theses

Meg Yoder, Colby, 2018-19. Primary advisor.

Kaci Kus, Colby, 2017-18. Committee member. Advisor: Robert Gastaldo.

Alyson Churchill, Colby, 2017-18. Committee member. Advisor: Anders Carlson.

David Polashenski, Dartmouth, 2017. Second faculty reader. Advisor: Erich Osterberg. Authored paper in *Journal of Geophysical Research – Atmospheres*.

Patrick Saylor, Dartmouth, 2015-2017. Co-advisor with Erich Osterberg.

Chason Goldschmitz, Columbia University, 2015-2016. Co-advisor with Sidney Hemming.

Undergraduate Researchers

Zaie Nursey, Colby undergraduate, fall 2021-

Dru Gahl, Colby undergraduate, fall 2021-

Cecilia Bowe, Colby undergraduate, fall 2020-
Roujia Zhong, Colby undergraduate, summer and fall 2020, fall 2021.
Luisa Coakley, Colby undergraduate, summer 2020.
Marius Orehovschi, Colby undergraduate, 2019-2020.
Natalie Harmon, UMaine undergraduate, summer 2019.
Lena Hanschka, Colby undergraduate, summer 2019 and AY2020-21. Co-authored paper in
Global Biogeochemical Cycles.
Lily Sethares, Colby undergraduate, summer 2019.
Taylor Methven, Colby undergraduate, 2018-2020. Co-authored paper in *Global Biogeochemical
Cycles*.
Helen Sears, Colby undergraduate, 2018-2020. Co-authored paper in *Global Biogeochemical
Cycles*.
Meg Yoder, Colby undergraduate, 2018-2019. Co-authored paper in *Global Biogeochemical
Cycles*. PhD student at Boston College beginning fall 2020.
Jared Fong, Colby undergraduate, 2018-2019.
Isabella Jacoby, Dartmouth undergraduate, 2017.
Eleanor Dowd, Carol Folt sophomore Research Scholar 2016-2017. Co-authored paper in
Journal of Geophysical Research – Atmospheres.
Joseph Malinowski, Dartmouth undergraduate, 2017.
Judy Pu, MIT undergraduate and LDEO REU intern, 2015. Co-advisor with Sidney Hemming,
Michael Kaplan, Cristina Recasens. Currently a PhD student at Harvard University.
Eliza Kane, University of Maine, 2010-2013. Co-authored paper in *Climate of the Past*.
Currently a professional consulting geologist.
Shelly Griffin, University of Maine, 2009. Completed M.S. degree in paleoclimatology at Iowa
State University.

Dartmouth First-Year Women in Science Program (WISP)

Shoshana Geller, 2016-2017

Rachel Rubin, 2016-2017

Eleanor Dowd, 2015-2016

High School Students

Stephanie Valentin, 2015. The Young Women's Leadership School of East Harlem, Lamont
Secondary School Field Research Program.

Laisa Sevilla, 2015. The Young Women's Leadership School of East Harlem, Lamont Secondary
School Field Research Program.

Paul Robinson, 2011 and 2012. Orono High School. Co-advisor: Chris Gerbi.

PUBLIC AND K-12 SCIENCE COMMUNICATION

2020	St. John's Preparatory School, Danvers, MA Camden Public Library, Camden, ME Hillside Avenue School, Cranford, NJ Springside Chestnut Hill Academy, Philadelphia, PA
2019	D.A. Hurd Library Science Cafe, South Berwick, ME Springside Chestnut Hill Academy, Philadelphia, PA Waterville High School, Waterville, ME
2018	Hillside Avenue School, Cranford, NJ Featured on Albuquerque BioPark interactive exhibit on climate and conservation

- 2017 Snow Pond Academy, Sidney, ME
Vermont Center for Ecostudies “Suds and Science” Series, Norwich, VT
Dartmouth Allen House RED Talk, Hanover, NH
- 2016 Montshire Museum of Science, Norwich, VT
Courtyard Estates of Walcott, IA
Durant Middle School, Durant, IA
- 2015 Heronfield Academy, Exeter, NH
- 2014 Cogitania afterschool enrichment program, Brookline, MA
Hudson River Science Snapshot Day, Piermont, NY
College Club of Ridgewood, NJ
Lamont-Doherty Open House, Palisades, NY
- 2013 Hudson River Science Snapshot Day, Piermont, NY
Panelist, public showing and discussion of *Thin Ice* documentary, Orono, ME
Co-facilitator, Asa Adams Elementary School field trip, Climate Change Institute
- 2012 Physics Camp, University of Maine (3 days)
Phoenix Rising School (all ages, 40 people), Yelm, WA
- 2011 Encore Leadership Corps, a statewide adult volunteer program administered by
the UMaine Center on Aging
Co-facilitator, Asa Adams Elementary School field trip, Climate Change Institute
“STORMS: Students and Teachers Observing and Recording Meteorological
Systems” program through The Island Institute, ME
Climate Change Science Day at the Climate Change Institute (presentations to
~100 students from high schools throughout Maine)
Expanding Your Horizons, part of the National Girls Collaborative Project aimed
at advancing the agenda in gender equity for STEM, Orono, ME
- 2010 Sunbury Village retirement center, Bangor, ME
Coastal Studies for Girls, Freeport, ME
Orono High School lunch seminar series, ME
Expanding Your Horizons, part of the National Girls Collaborative Project aimed
at advancing the agenda in gender equity for STEM, Orono, ME
- 2008 Upward Bound, a science program for underprivileged Maine youth, Orono, ME
Stillwater Montessori School, Old Town, ME
Morison Memorial Elementary School, East Corinth, ME
- 2000-2004 Tutor and Mentor, Gifted/Talented program and America Reads/Counts program;
worked 10 hours/week with K-8 students on writing, math, and science;
Northfield Public Schools, MN

MEDIA COVERAGE

- 2019 “Dust in ice cores gives climate clues,” *Mount Desert Islander*, 21 April 2019
Interviewed for *BBC Future* article, “The ancient memories trapped in the world’s
glaciers,” April 17, 2019
Interviewed for *New York Times* article “Before global warming, humans caused
global cooling, study finds,” Feb. 5, 2019
- 2018 Featured in article, “Bess Koffman: Time-traveling through Antarctic ice” in
Colby Magazine, 18 August 2018
- 2017 Featured in article, “Fellowship” in *Dartmouth Alumni Magazine*, 1 May 2017
Interviewed on *Radio New Zealand* by host Wallace Chapman, 16 April 2017

- 2014 Featured in article, “New Zealand dust may have cooled Earth during last ice age,” *LiveScience*, 24 March 2014
Featured in article, “Did New Zealand dust influence the last ice age?” on the “State of the Planet” blog, Earth Institute, Columbia University, 13 March 2014
- 2012 Invited for interview on Biddeford, Maine public access television program, “The Wandering Road with Micki Cope,” 26 January 2012
- 2011 Featured in article, “How do ice cores allow researchers to see climate change?” on “Punctuated Equilibrium” blog hosted by *The Guardian*, 12 May 2011
Outreach video featured on the National Science Foundation’s *Science 360 News Service: Breaking science that shapes your world* website, 11 May 2011
Coverage of newly designed ice core melter system in *UMaine Today* magazine blurb, “Ice Time,” Spring 2011 issue
Outreach video featured on UMaine’s *YouTube* channel and on WAIS Divide ice core project website
- 2010 Featured in *Antarctic Sun* magazine article, “On the line: researchers spend summer in deep-freeze to slice and dice WAIS Divide ice core,” August 2010
Featured in *Bangor Daily News* article, “Melting ice at core of climate study,” July 2010
Coverage of research on 3 local TV stations: WLBZ2 (NBC), WABI TV5 (CBS), and WFVX 7 (ABC and FOX), July 2010

COLBY COLLEGE SERVICE

- 2020-21 Elected member, Distribution Requirements Task Force
Appointed member, Environmental Advisory Committee
Appointed member, Radiation Safety Board
Member, Geology Department faculty hiring committee
- 2019-20 Member, Phi Beta Kappa Visiting Scholar Organizing Committee
Elected member, Distribution Requirements Task Force
Appointed member, Watson Fellowship Committee
Appointed member, Environmental Advisory Committee
Appointed member, Radiation Safety Board
Appointed member, Environmental Science Advisory Committee
Member, Geology Department faculty hiring committee
- 2018-19 Member, FIT Fellowship selection committee
External member, Economics Department faculty hiring committee
Member, CUSRR Organizing Committee
Member, Geology Department faculty hiring committee
Discussion facilitator, STEMinist dinner
Appointed member, Distribution Requirements Task Force
Appointed member, Environmental Advisory Committee
Appointed member, Radiation Safety Board
- 2017-18 Outside reader, Biology Department Writing Enhanced Curriculum
Discussion facilitator, STEMinist dinner
Provided feedback on STS postdoctoral candidates

Member, Environmental Science Advisory committee

PROFESSIONAL SERVICE

Manuscript Reviewer for: *Nature Communications*, *Nature Geoscience*, *Scientific Reports*, *Communications Earth & Environment (Outstanding Reviewer 2021)*, *Geophysical Research Letters*, *Journal of Glaciology*, *Science of the Total Environment*, *Biological Trace Element Research*, *Journal of Geophysical Research – Atmospheres (Outstanding Reviewer 2015)*, *Journal of Geophysical Research – Oceans*, *Earth and Planetary Science Letters (Outstanding Reviewer 2015)*, *Global Biogeochemical Cycles*, *Quaternary Science Reviews*, *Geosciences*

Ad Hoc Proposal Reviewer for: *NSF Arctic Natural Sciences*, *NSF Antarctic Glaciology*, *NSF Geomorphology and Land Use Dynamics*, *FONDECYT (Chile)*, *The Icelandic Research Fund (Iceland)*, *The Marsden Fund (New Zealand)*

2021	NSF Panelist
2021	Co-convenor, AGU Fall Meeting: “Ice core records of environmental change”
2020	NSF Panelist
2019-	Member of national Science Advisory Board for NSF-funded Ice Drilling Program; provide guidance on long-term scientific planning for the ice core community and NSF
2018	Co-convenor, Goldschmidt Geochemistry Conference: “Tracing dusts and aerosols from source-to-sink with chemistry, mineralogy, and isotopes” (stand-in for Steve Goldstein)
2017	NSF Panelist
2016	Co-organizer, ICYS Early Career Workshop, Hobart, Tasmania (85 participants)
2015-2016	Interviewed candidates for <i>Math for America</i> teaching fellowships (New York City public school science and math teachers)
2015	Co-convenor, AGU Fall Meeting: “Climate variability in the mid-to-high latitude Southern Hemisphere since the Last Glacial Maximum”
2013-	Outstanding Student Paper Award (OSPA) judge, AGU Fall Meetings (yearly)
2013	Co-organizer, WAIS Divide Young Investigators Meeting, La Jolla, CA
2012-2017	Founding member and Executive Committee, Ice Core Young Scientists (ICYS)
2010-2013	Maine Climate News website graduate student response panel
Spring 2012	Judge, Center for Undergraduate Research Showcase, University of Maine
Fall 2010	Grant reviewer, University of Maine Graduate Student Government
2009-2011	Carleton College Alumni Admissions Representative
2008-2010	Visiting Speaker Coordinator, Dept. of Earth Sciences, University of Maine
